Enquiry for a long-term project position (about 12 months)

Suvranil Ghosh &lt;suvranilghosh97@gmail.com&gt;

Mon, Aug 30, 2021 at 10:24 AM

PARA 1

Dear Dr. [REDACTED]

My name is Suvranil Ghosh, and I passed MSc in Physics from IIT Madras in July 2020. Recently ( from August 2021), I have joined IIT Guwahati, Biosciences and Bioengineering department as a Ph.D. student.

INTRO

P2

From August 2020, I joined a project on **the random walk on a complex network** at **ISI, Kolkata**, under **Dr. Chittaranjan Hens's** supervision.

P3

Recently I have come across your lecture series on Network Dynamics ( on the ICTS youtube channel). I also read one of your recent papers named '**Risk assessment via layered mobile contact tracing for epidemiological intervention**'.

STORY

P4

For few personal reasons, I had to join IITG. But I want to leave this place. My ultimate goal is to do a Ph.D. in complex networks. But before that, I want to enrich my experience by doing projects on that. During my project at ISI Kolkata, I understand that computation (data structure, machine learning, etc.) plays a huge role in this field. I am also working on that.

NEXT GOAL

P5

Would you please let me know if there is a possible opening for a project position in your group? I am available to discuss this possibility further. I would also be happy to volunteer in your projects before committing to anything to see if this is a good match.

OPENING SCOPE FOR FURTHER COMMUNICATION

P6

I have also attached a CV and a motivational letter for your consideration.

P7

Please let me know if you would like to know some other information. I am looking forward to hearing from you!

With regards,

Suvranil
